

Don't Miss these

Home Performance with ENERGY STAR® Events at the 2008 ACI Home Performance Conference

Sunday Evening Introduction to Home Performance with ENERGY STAR®

Home Performance with ENERGY STAR is helping home performance contractors in over 20 states improve the energy performance and comfort of their customer's existing homes. We have refined the program and developed new materials to assist potential program sponsors as they explore the opportunities and challenges of launching a HPwES program in their area. Join us for an informal session designed to answer your questions.

- Learn the basics and benefits of a locally-sponsored Home Performance with ENERGY STAR program
- Hear about program results and lessons learned from established programs
- Understand the role of a local program sponsor and steps to launching a program

When:
Sunday, April 6, 2008

Where:
Hilton Pittsburgh
600 Commonwealth Place
Pittsburgh, PA 15222

Session Start: 7:00 PM
Session End: 8:30 PM

Registration:
FREE

Presenters:
Dale Hoffmeyer, *U.S. EPA / ENERGY STAR*
Patricia Plympton, *Navigant Consulting*

Monday, Full Day (Special Session) National Home Performance with ENERGY STAR® Symposium

Home Performance with ENERGY STAR links ENERGY STAR to comprehensive, building science based home improvement services. This symposium will discuss sponsor deployment strategies and national implementation issues for both new and mature Home Performance with ENERGY STAR programs, and is specifically for HPwES program participants and potential program sponsors.

Don't miss this opportunity to learn how this new program is changing the face of delivered residential energy efficiency of existing homes!

Check the ACI website for an updated agenda.
